“I am pleased and satisfied with the quality of care Marcus is enjoying at SPARKS despite him having only joined in Jan 11. The environment is conducive and safe. I have been most impressed with the professionalism of the teachers (especially Mingzhu, Jennifer and Tia) at SPARKS because there is emphasis on personal and good character development which I value much, besides academic supervision. I really appreciate the little talks and updates I have whenever I get to meet the teachers. Hope we work well together as partners at home and in SPARKS for the development of Marcus. Thanks a lot!”
